We are proud to announce the first *vinyl only* release on our dearly beloved label **SUPERB recordings**. Introducing the release artists from cologne, **IASI**.

Acid-S and **Roughnic** met in late 90ies through producing and DJ-ing. They organized underground parties and developed their skills of music. **Acid-S** worked in studios like Akropolis (EMI, BMG), X.1 (WDR, Kraftwerk) and Sinsport (Groove-Attack, Interworld) as a producer and engineer.

Roughnic is a member of the **Riddim Box** Crew and played bookings from Poland to New York, represented **IASI** on his support gigs for SBTRKT, Zed Bias, Benga, Chase & Status, Example and Skrillex. The science of pattern, drums and futuresound are their common sense.

Their first three track EP is a full blast of fresh future bass sounds.

Mastered by **CGB** from Dubplates & Mastering Berlin and limited to 300 copies in black vinyl the "**Vision EP**" will be available through different selected record stores worldwide.

Not just for your aural delight there will be 100 limited advance copies in tastefully green marbled vinyl with an additional artwork print designed by Tessa De Ceuninck. (this one is available only through the contact email on our **SUPERB recordings** website).
