The SUPERB recordings philosophy always means a quality vinyl only pressing and the mastering has once again been magically touched by "the don" CGB from Dubplates & Mastering Berlin.

What goes around, comes around, and here is your invitation to embark on a journey. Listen & Explore. Listen & Understand. Come to Adventure Island and get down in the wildlife. It could be anywhere, maybe even Berlin. This Island is created by our four Artists. Each creating part of this delicious sonic fantasy.

MIXTHOVEN from Danemark, a young prodigy that got bored his guitar roots and created MIXTHOVEN where he shapes and forms his unique sound of deep Electronica.

The Stellar JOHANNA RÖRBY from Stockholm/Sweden, the first lady of SUPERB recordings. She has contributed a beautifully subtle track providing an extra-ordinary musical playground for your ears.

The Italian natives ANALOUGE SENSATIONS MODELLING (A.S.M.) are Fernando Poo and Turntable/Techno Legend Francesco Zappala. Together share a lifetime, in years of experience in the DJ and electronic underground music scene. They provide grooves that will leave you burning like the embers of a chalwa.

Last but not least, MARTIN LEWIS, Nowkölln Berlin resident honours us with the first SUPERB recordings release. He's down with Obi-Wan Kenobi to get you jedi focused with this anthem.

All four tracks are mastered by **CGB** from Dubplates & Mastering Berlin. Limited to 333 copies in black, plus 100 limited advance copies in 4 coloured marbled vinyl including a print designed by **Tessa De Ceuninck**.
